Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Thursday 07 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Wintry showers and risks of ice.

This Evening and Tonight:
A clear evening turns cloudy as further wintry precipitation moves in. Widespread frost is likely, and a risk of ice in the northwest of the region, particularly where rain falls onto frozen surfaces. Minimum temperature -4 deg C (25 deg F).

Friday:
Lingering fog possible. Outbreaks of rain, sleet and snow linger around coastal areas and Bristol during the morning, but turns widespread into the afternoon. Remaining cold and turning icy overnight. Maximum temperature 4 deg C (39 deg F).

Outlook for Saturday to Monday:
A frosty and foggy start Saturday, clearing to give sunny spells. Cloudier into Sunday, with outbreaks of drizzle. Turning more unsettled into Monday afternoon, with stronger winds and occasional rain.
